

CTEP-WA: PROMOTING COLLABORATIVE RESEARCH IN WESTERN AUSTRALIA

The aims of the Clinical Trials Enabling Platform of Western Australia (CTEP-WA) are to provide advice to clinician researchers on any aspect of the lifecycle of research and to enhance the quality of clinical trials being conducted in Western Australia.

WHAT WE DO

Clinical Research Support Service

A free service providing personal consultations with a 3-pronged approach:

- provides advice on any aspect of the lifecycle of research
- directs clients to existing resources already available
- encourages researchers to engage with consumers early in the development of their research projects

Monitoring & Auditing Service

We ensure that reported trial data are accurate, complete and verifiable from source documents, and compliance with the current protocol, Good Clinical Practice and applicable regulatory requirements

- 12 active clients
- 4 completed projects

Biostatistical Service

We provide expertise in research design development, including sample size and statistical analyses plans, reviews of funding applications, data checking and assessment of normality, analysis of data and preparation of summary results in accordance with ICJME guidelines.

REDCap Data Housing & Design Solutions

We work with researchers to design and build data capture instruments, including e-CRFs, surveys and other data collection tools. We have expertise in developing custom software to import and merge data, including Power BI that allows users to analyse and visualise data from various sources through interactive dashboards.

ACHIEVEMENTS & FUTURE PLANS

Recognition of our excellent quality and cost-recovery approach from both investigator-initiated and commercial clients has led to a rapid growth in demand for our Research Services. Our clients include public and private hospitals, universities and research institutions, and not-for-profit and commercial organisations.

We'll continue and expand our range of services. We will formally partner with like-minded organisations, including The George Institute (NSW) and Monash University (Victoria), which will create opportunities for multi-centre collaborative research for Western Australian investigators.
